SONAE 
ARAUCO

Taking wood further

Sonae Arauco is a worldwide producer of wood-based panels. Its mission is to offer wood-based solutions that improve people's lives. Sonae Arauco strives to take innovation further, bringing its products to the next level of design and quality for the furniture and interior design sectors.

RESPECTING THE ENVIRONMENT IS PART OF OUR NATURE.

We are committed to the principles of sustainable use of raw materials and we actively respect and promote these principles in all our business practices. We believe that we can build and transform beautiful, warm spaces using wood-based solutions that are sustainable, affordable and attractive.

All Sonae Arauco factories meet internationally recognized standards in terms of occupational health and safety, as well as environmental, quality and energy management standards.

With an international presence, a strong industrial soul and a long-term vision, Sonae Arauco is deeply committed to the environment. The development of its wood-inspired solutions takes industrial functionality, quality and design aspects into consideration, turning its products into value-added solutions with multiple application possibilities.

WE CREATE WOOD-BASED SOLUTIONS FOR A BETTER LIFE AND A BETTER PLANET.

Our energy management standards include certifications of OHSAS 18001, EN ISO 14001 and EN ISO 9001. Our products are an important source of carbon capture, contributing to the mitigation of climate change. Our Environmental Product Declaration (EPD) is verified by the institute Bauen und Umwelt E.V and presents a transparent view of the environmental impact of its products.

How can our products help you to become green building certified?

The Green Building Council of South Africa (GBCSA) is a membership-based organisation that operates across the commercial, residential and public sectors: advocating for and certifying buildings that meet the GBCSA criteria, in order to ensure that buildings and homes are designed, built and operated in a sustainable way.

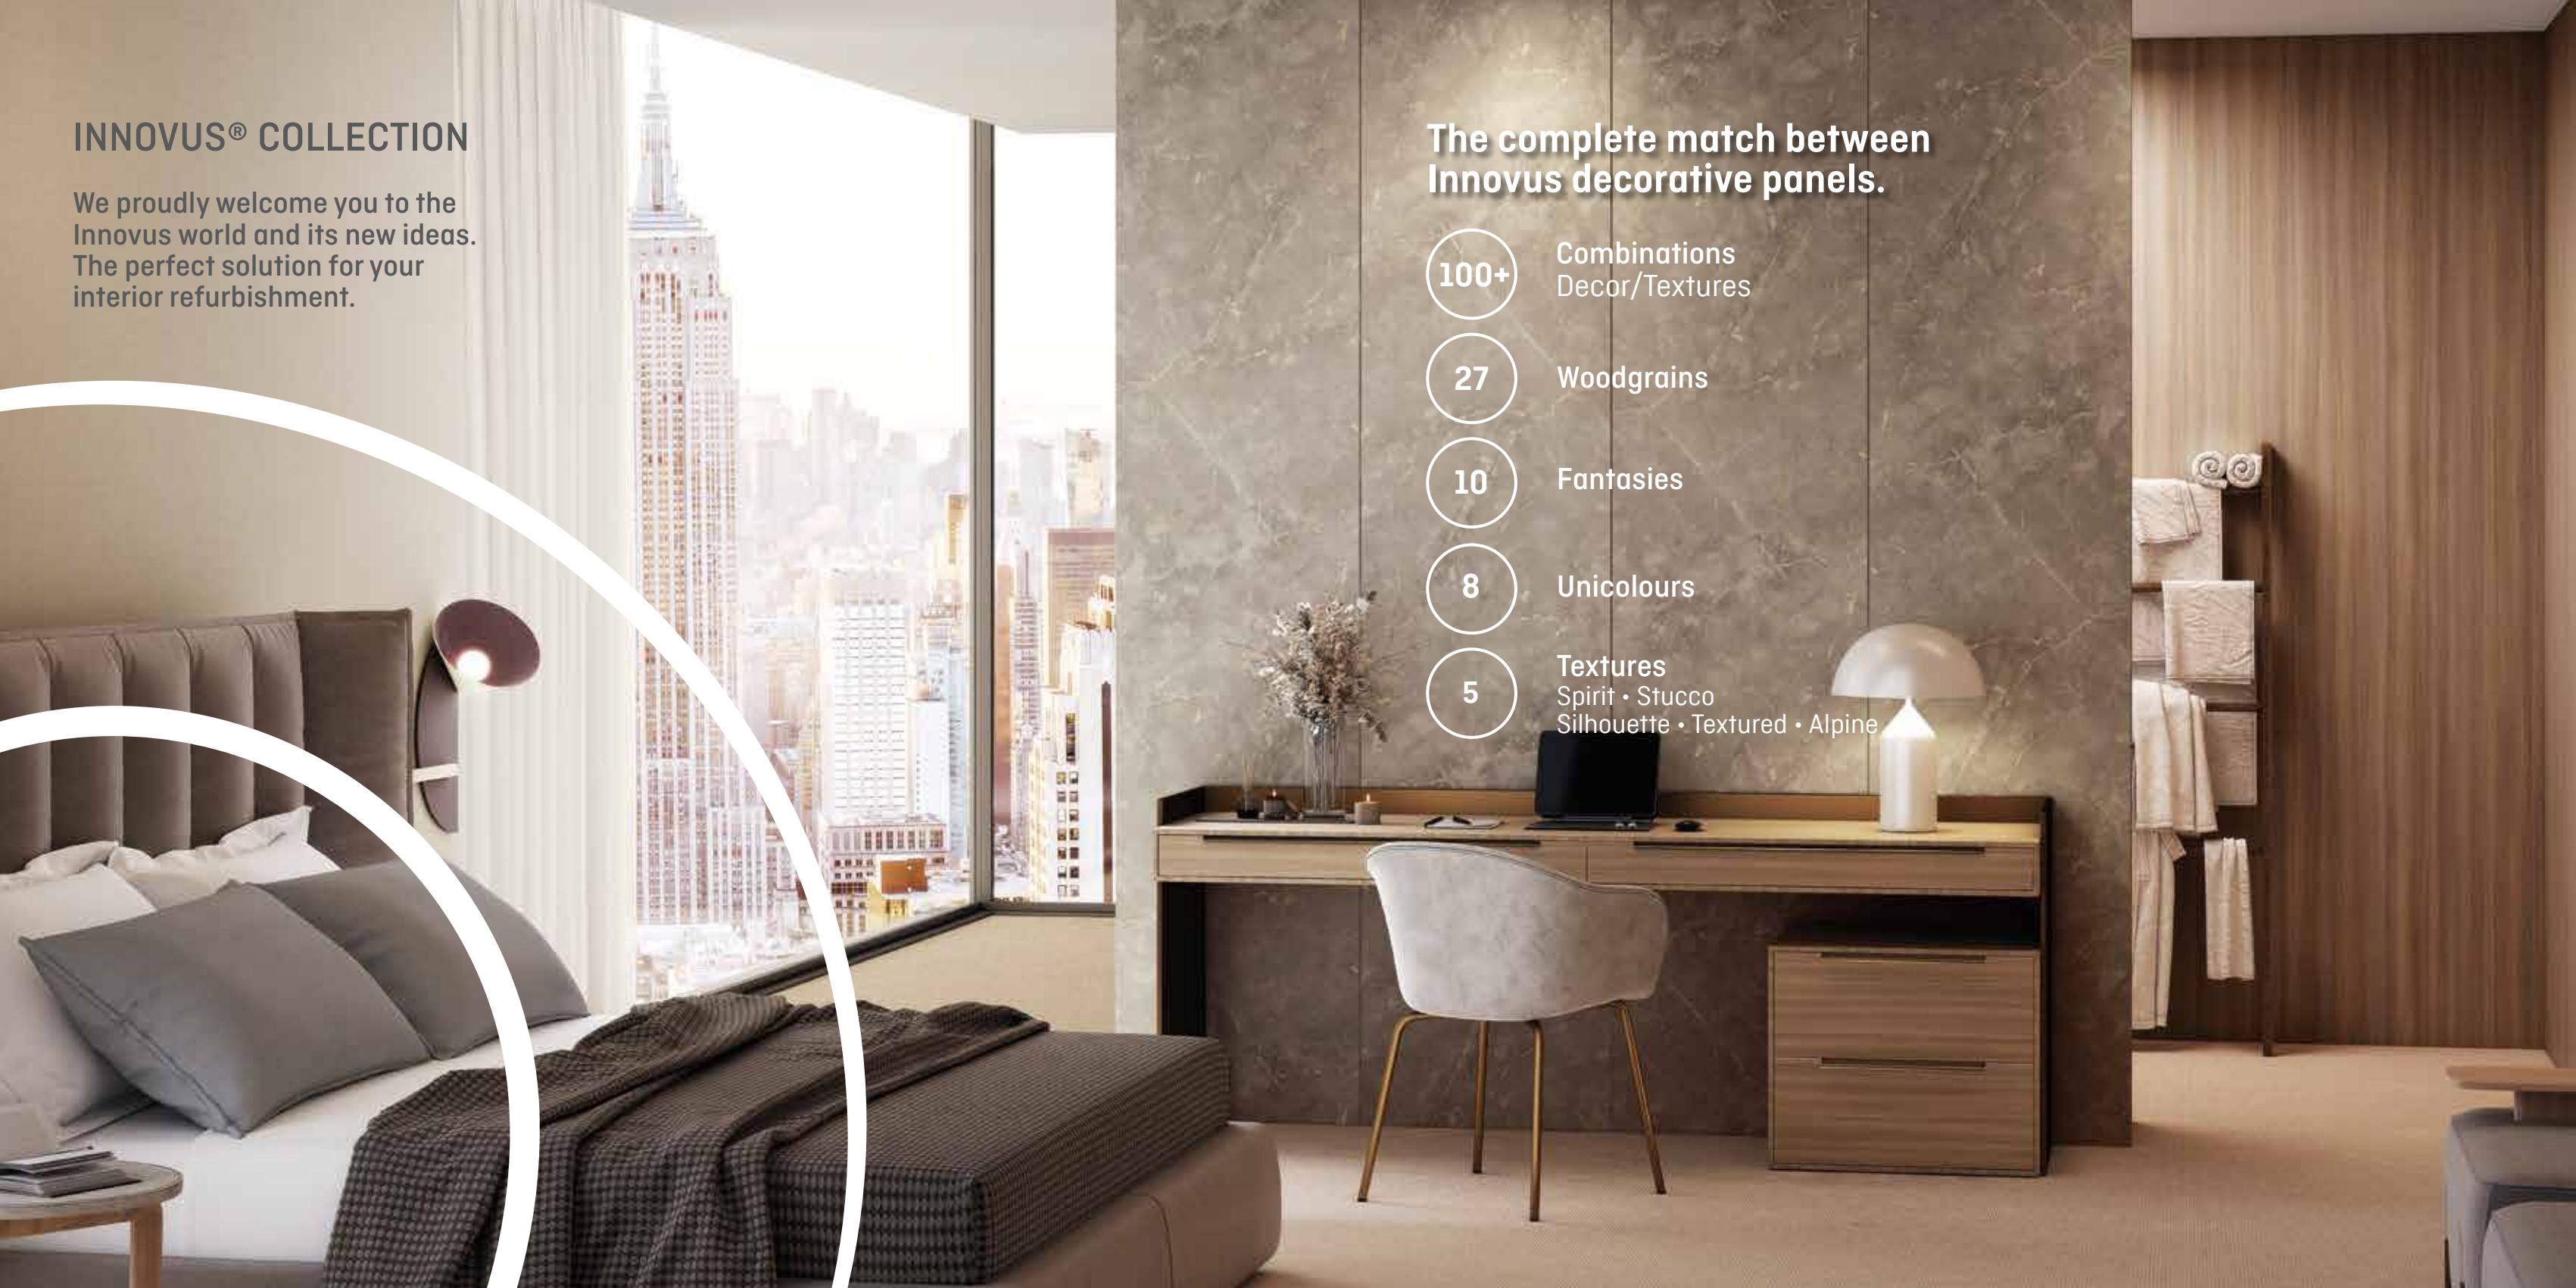

INNOVUS® COLLECTION

We proudly welcome you to the Innovus world and its new ideas. The perfect solution for your interior refurbishment.

The complete match between
Innovus decorative panels.

- 100+ Combinations
Decor/Textures
- 27 Woodgrains
- 10 Fantasies
- 8 Unicolours
- 5 Textures
Spirit • Stucco
Silhouette • Textured • Alpine

Wood-based panels are the most sustainable, flexible alternative to real wood and other materials, such as marble or concrete. They have high aesthetic appeal and are suitable for a growing number of applications such as office and home, bathroom and kitchen furniture as well as doors, wall paneling and decorative elements for residential and public projects.

MORE THAN JUST CREATING WOOD-BASED PANELS, WE OFFER SOLUTIONS TO IMPROVE PEOPLE'S LIVES.

Our decorative panels provide desired aesthetic appeal as well as antibacterial properties which enhance functionality.

INSPIRED BY NATURE TO IMPROVE WELLBEING.

"We believe in the value of wood for contemporary and inspiring creations while contributing to a more sustainable world".

PROPERTIES

-  Squareness
-  Dimensional Integrity
-  Easy to Clean
-  Ideal for CNC Machining
-  Drilling
-  Dimensional Stability
-  Low Emissions
-  Easy to Mill
-  Stain Resistant
-  Screw Holding Integrity
-  From Sustainable Sources

in decorative panels.

DECORATIVE PANELS (DP)

Innovus decorative panels (DP) are an essential product for furniture and interior design. They combine the high quality of our particleboard (PB) or medium density fiberboard (MDF) with impregnated decorative paper. When paired with our optical and tactile surface, they provide, the most realistic and natural look and feel.

Suitable for indoor use and easy to clean. When suitably cared for, Innovus decorative panels have antibacterial properties and are stain resistant.

They provide, the most realistic and natural look and feel. Innovus decorative panels meet all the regulatory requirements of EN 14322 and comply with the lowest formaldehyde emissions requirements.

INNOVUS® TEXTURES

Innovus® textures offer a new way of redesigning your living spaces with unique visual and tactile sensations. Get to know them and make a statement with your creations.

Adding value to all decors. Unique and exclusive textures that speak to the senses for a more tactile, immersive experience.

STUCCO

Stucco is a highly tactile surface inspired by industrial environments, urban lofts and natural origin materials.

STU

SILHOUETTE

This linear embossed finish provides a deep-matte effect, creating a highly authentic wood grain. Perfect for all applications.

SIL

TEXTURED

Provides a smooth surface that is great for all environments, whilst maintaining its natural appeal. Ideal for all applications.

TT

NEW SPIRIT

Spirit is an expressive finish, full of movement and contrast, providing the true spirit of real wood.

SPT

ALPINE

A stalwart embossed finish, bringing woodgrains to life. Suitable for most applications.

QUALITY

Sonae Arauco works closely with EPH, an independent accredited test laboratory and certification body. EPH is recognised worldwide as proof of performance for materials and products, including Green Building Council SA (ISO / IEC / IEC 17025 registered laboratory).

Disclaimer: Please note that whilst every possible effort has been made to ensure that the colour and structural differentiation on examples is accurate, between printing and the final product there will always be a slight variance. Please see an actual sample before making a decision.

SOCIAL MEDIA

Keep up with all the news from Sonae Arauco and be inspired by our posts on social media. Follow our pages and discover the architecture and interior design trends as well as the events we are present at.

SAMPLES

Before making the final decision on projects, architects, interior designers and furniture manufacturers are welcome to request a set of samples.
